

March 15, 2012, all public swimming pools (open to the public at any time or receiving funding or revenue from the government or membership dues)in the U.S. must be equipped with assisted entry systems for the handicapped. As part of the 2010 Standards for Accessible Design, regulations of the Accessible Design for Recreational Facilities will require all public pools and spas to be outfitted with an ADA compliant swimming pool lift or sloped entry. Each pool and spa will need their own device. One device per 300 LF of pool is required.
